I appreciate you helping me when nobody else was around. There was an annoying sound coming from the door. The door was repaired without replacing it. Good work, keep it up.

My garage door got broken and I was able to find someone who was able to fix it. It happened quickly and for a reasonable price. I got higher quotes from other companies, but Phoenix Garage Master seems the best.

I would like to say my thanks to all of the technicians who work for this company. I was having some serious trouble with my garage door recently, and I called them up. They were able to send someone out the next day, which really helped me out. The technician took a look at it and told me exactly what was wrong with it, and then he got right to work fixing it. He had it fixed in no time at all, and now it's operating better than ever.
